HOSPITAL WARDS CROWDED.

Condition of Washington Hospital Described by Dr. Hickling. The attention of the District Commissioners has been invited by Dr. D. Percy Hickling, visiting physician to the Washington Asylum Hospital, to the crowded condition of the wards of the institution at the present time. Dr. Hickling states that the white male ward has seven more patients than there are beds, and that the colored female ward is in a similar condition, while the colored male ward has four more patients than there are beds. He refers to dissatisfaction that occurs among the staff and the nurses as well as the patients from the conditions that prevail, and he asks that he be permitted to refuse admission to patients when the ward to which they are assigned is full.

The matter was referred to the board of

are assigned is full.

The matter was referred to the board of charities, which has recommended that the sanitary officer be instructed that when the Washington Asylum Hospital is filled to its normal capacity he make an effort to secure admission of patients to other hospitals before sending them to the asylum hospital. In case other hospitals however, refuse for any reason to admit the patients, the board does not deem it advisable to grant authority to the visiting physician to refuse admission to any patient sent to the hospital by the proper authorities.
